

**Our planet is out of time  
So you're wrong when you say  
Our home will survive  
Because I know in my mind  
That our planet will die  
So don't feed the lie  
That we have hope to call Earth our home  
Because I know in my heart  
We're heading to Mars  
So it's useless to say  
Earth is our future.**

(Now read this bottom up)
